CONSTRUCTION **WORKFORCE** INITIATIVE

We are seeking men and women who are considering a career in the construction industry.

Program Overview:

The 3D Program consists of an intensive, five-day Construction Workforce Boot Camp and the opportunity to be invited to industry-specific job fairs. Once enrolled in the program, students will learn about various career options ranging from building development and finance, to architecture, to construction management and skilled trades.

What You'll Learn:

Learn about the many career options in construction, development, and architecture.

Also, learn decision making skills, requirements for each occupation, problem solving, and time management skills.

After The Training Program:

- If you're interested in a career in construction, you'll be invited to career specific job fairs with employers who are actively hiring to fill open positions.
- In some cases, internships will be available for those who want further exploration into the construction industry.

Average Hourly Wages:

- Carpenter = \$31.00
- Electrician = \$38.00
- Plumber = \$38.00
- Architect = \$19.00+
- Heavy Equipment Operator = \$29.00
- Project Manager = \$19.00+

Did You Know:

The construction industry has a larger percentage of open positions than any other industry in America!

200,000 open positions nationwide!

REQUIREMENTS:

Must demonstrate proficiency in basic math and reading.

Must have reliable transportation to the boot camp training course.

Must be able to attend the entire five-day boot camp.

Must be pre-registered and confirmed to attend. Walk-in registration is not permitted.

APPLICATION DEADLINE:

August 1, 2017
