**Mondays & Thursdays
September 14th
through November 2nd
5:00 p.m. – 8:00 p.m.**

PRINTREADING FOR RESIDENTIAL & LIGHT CONSTRUCTION

The reading of construction prints is a foundational skill in construction. All construction professionals, regardless of whether they are working in the field or in the office, must know how to read blueprints. This course is designed to provide you with that foundational knowledge and enough practice at reading blueprints to get you started. Architectural, electrical, plumbing, mechanical, and HVAC are discussed. Plot plans, floor plans, elevations, sections, and details of all elements that make up a blueprint will be presented. Tuition includes textbook and working set of drawings. (15 sessions)
